Self tapes are the best and easiest way to submit you for auditions and jobs.
On most occasions we can send you a script from the client regarding the audition piece.

TIPS FOR SELF TAPE

There are some simple tips that will give you the best self tapes,

- 1 - Find a brightly lit room to record in, one with white walls will be ideal.
 - 2 – have a friend to operate the camera / phone for you, or use a tripod or flat surface
 - 3 – please record your self tape in landscape
 - 4 – please don't send us a long winded tape, just to the point
 - 5 – introduce yourself example – Andy Martini Star Casting for the role of Mcbeth, then from the script deliver your lines to the camera,
 - 6 – If the script has other actor's lines, maybe have a friend feed you those lines and you deliver your lines to camera the best you can
- Always send your self tapes to us at Star casting, one of the best ways to send over to us, as The file could be quite big is <http://wetransfer.com/>
